WE DEMAND the free and unlimited coinage of both gold and silver at the present legal ratio of 16 to 1, without waiting for the aid or consent of any other nation. We demand that the standard silver dollar shall be a full legal tender equally with gold for all debts, public and private.—Democratic National Platform, 1896.

Free coinage means that silver and gold bullion shall be coined without charge by the United States mints. Unlimited coinage means that all the gold and all the silver presented at the United States mints shall be coined into money.

The ratio of 16 to 1 means that the number of grains of pure silver in a silver dollar shall be sixteen times the number of grains of pure gold in a gold dollar.

By a full legal tender is meant that when a debtor offers either gold or silver to a creditor in any sum whatever, the creditor is bound to accept the same and discharge the debtor from his liability.

Palmer will run behind Levering in Christian county.

Bryan's campaign has stopped the raiding of the treasury gold for four months, whether he is elected or not.

Bryan's candidacy has brought \$40,000,000 in gold to this country without a bond issue.

Prince Victor Emanuel, the future King of Italy, was married on the 24th to Princess Helene, of Montenegro, the most magnificent specimen of womanhood among the royalty of Europe. The Prince is 28 and less than five feet tall. His bride is 23 and more than six feet in height.

Robert McGuire, a Livingston county man appointed as a Democratic election judge, has declared himself for McKinley and resigned his appointment as an election officer. In this county, some of the "Democratic" officers appointed have not, so far, taken the same high minded view of the proprieties involved.

The Courier-Journal's special correspondent concedes 10,000 majority for Bryan in the First district. The Democrats claim not less than 14,000. The total vote is estimated at 34,000, of which 11,000 is given to the Republicans. The claim is also made in the Courier-Journal's estimate that 95 per cent of the Democrats will vote for Thomas, the Republican candidate for Congress, and the fusion forces entertain a hope that Thomas may get enough votes to slip in between Wheeler and Keys, the silver candidates.

Two young men who threw eggs at Mr. and Mrs. Bryan in Chicago were arrested Wednesday and made a confession. At Mr. Bryan's request they were released.

Wheat is still going down the attempt to boom it up to fancy prices for campaign purposes having failed. From 82 cents it has dropped to 78 at Chicago.

The total registration in Hopkinsville is 1538. These figures added together—one, five, three and eight—make 17. Another case of sixteen to one.

Master Joe Hartfield, the precocious young Democrat who used to live in this city, made a silver speech to the Bryan club in Henderson Wednesday night.

This issue of the KENTUCKIAN practically closes the campaign, as the ballots will be falling into the big tin boxes when another issue comes out. It has been a hard fought and long drawn out contest and it is a relief to know that the end has come at last. We approach the end feeling more than ever confident that the patriotism of the people will assert itself and that a glorious triumph awaits the cause of constitutional money.

As the triumph of Bryan becomes more certain, the gold gamblers are resuming their old tactics of grabbing the gold in sight. The Treasury reserve has suffered a raid of \$3,422,800 within the last week. After Bryan is elected, look out for them to make a final grab and get all that is left, in order force another bond issue before Carlisle turns over the Treasury Department to a Democrat.

The Chicago Record's postal card election has closed. It gives Kentucky to Bryan by a vote of 5,771 for Bryan, 5,203 for McKinley, 386 for Palmer and 61 for Levering. The changes from the vote of 1892 showed a net gain of 102. These figures indicate nothing, as the Democrats as a rule declined to send in the blanks, acting under instructions from the national committee. The total vote cast in eleven states was 239,676. All of these state excepting Kentucky were shown to be for McKinley.

We know that the banks are sensitive to criticism, yet we beg leave in the midst of all the cry for "honest money" and "paying debts in 50 cent dollars" to recall the transaction occurring when the New York banks went into suspension and paid their depositors in depreciated clearing house certificates. We understand that a gentleman of this city had money on deposit in a New York clearing house. He checked for it and was paid in a clearing house certificate, which he had to discount in order to obtain the money we think. This loss has never been made good to him. This was his own money on deposit in the bank and there was a legal and moral obligation to pay it to the "utmost farthing." Thousands of dollars were paid in the same way and while the memory of these transactions remains modestly at least should keep the banks of New York bent on honest payment of debts.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of Testimonials.

The Century for opens the twenty-seventh year of the magazine with a series of papers by General Horace Porter, entitled "Campaigning with Grant," embodying recollections of Grant during the period of his supreme command over the Union army. From the first paper it will be seen that General Porter's work will give an intimate revelation of Grant's nature, and that it will be enlivened by abundant anecdotes. Two serial novels are begun in this number: "Hugh Wynne, Free Quaker," by Dr. S. Weir Mitchell, is a story in which Wynne, "sometime officer on the staff of General Washington," tells, in the first person, the story of his life. The first instalments give graphic pictures of life in Philadelphia just before the revolution. The other serial, by Mr. Marion Crawford, is entitled "A Rose of Yesterday"; the opening scene is in Lucerne, and the characters are all Americans. "Election Day in New York" is described in much detail by Earnest Ingersoll, and is accompanied by pictures by Mr. Jay Hambridge. "The Olympic Games of 1896" are the subject of a paper by their founder, Baron Pierre de Coubertin, now the President of the International Committee, and his article is illustrated by Andre Castaigne, who was sent to Athens for the express purpose of making the pictures.

THE COMPLETE REGISTRATION.

The Largest Number Ever Recorded In One Year.

The three days of supplemental registration added 107 names to the regular lists made on Oct. 6. Of these 40 were colored and 67 white. Politically the Democrats obtained a slight advantage. There were 51 Democrats, 49 Republicans and 7 doubtful. The grand total as now made up by districts is as follows:

No.	1895	1896
1	413	455
2	318	369
3	257	278
4	381	435

Good News From Michigan.
(Henderson Gleaner.)

James N. Banks, of the Banks' Hardware company, has received a letter from John F. Bible, Ionia, Mich., which gives good news from that State. The following is a copy: IONIA, MICH., Oct. 24, 1896.

My Dear Sir: As it stands to-day Michigan is for Bryan and silver by an overwhelming majority. I am getting some unfavorable reports from Kentucky. For the Lord's sake don't let the Tories put stain upon grand old Kentucky's name. McKinley and Hobart have about dropped out of sight up here. It is now Hanna and boodle who are fighting against us. We can win without Kentucky, but I want Kentucky to share the victory and rejoice with us. Yours truly,
JNO. F. BIBLE.

Marriage is exhaustively discussed in the November Ladies Home Journal—by Mrs. A. D. T. Whitney, who tells her girl friends "The Truth About Marriage," and Dr. Parkhurst who writes of "The Young Man and Marriage." Both papers, as may be inferred, are able and lucid presentations of the marriage question. The same issue contains the first of "Mr. Moody's Bible Class" articles, which the famous evangelist will contribute to the Journal in the future—as the leader of a great National Bible Class. The initial article of "Great Personal Events" series—in which the conspicuous occurrences of the past half century will be told by eye witnesses—is also given. In it, Hon. A. Oakley Hall recalls "When Jenny Lind Sang in Castle Garden" (New York in 1850) and tells of the unparalleled furore created by the "Swedish Nightingale."

Six more prisoners have been allowed to escape from the Jefferson county jail through the incompetency or Jailer Watts. They spent a day of two making a hole in the wall of their cell, and through this aperture slide on ropes to the ground and escaped at dark Sunday afternoon.

The variety and interest of contents make the November Scribner's Magazine a notable number. The opening article, by Capt. C. J. Melliss, of the Ninth Bombay Infantry, "Panther Shooting in Central India," gives not only a vivid impression of the habitat of these great cats, but it is also a stirring narrative of adventure in their pursuit drawn from personal experience. The illustrations by Van Wyden, whose remarkable animal etchings have been praised for their accuracy and truth to nature by the author of the article, will serve to make this brilliant artist of animal life more familiar to American readers.
